For Immediate Release

### **Radware Joins VMware Technology Alliance Partner Program**

*Radware customers can measure quality of experience, optimize data center resources and ensure service level agreements are met through integrated VMware-Radware technology*

**MAHWAH, N.J.; September 15, 2008.** Radware (NASDAQ: RDWR), the leading provider of integrated application delivery solutions for business-smart networking, today announced it has joined the VMware Technology Alliance Partner (TAP) program. The VMware TAP program helps technology vendors integrate their products with VMware virtualization software and deliver timely, joint solutions to mutual customers.

“Being a part of the TAP program offers Radware needed APIs and resources to integrate Virtual Director closely with VMware Infrastructure and help our customers realize a truly automated data center,” said Ilan Kinreich, Chief Operating Officer, Radware. “Virtual Director helps customers optimize network traffic based on set priorities, reduce downtime, ensure service level agreement compliance, avoid penalties and save on operational costs.”

“We are excited to welcome Radware as the newest member of the VMware TAP program,” said Bernie Mills, senior director, alliance programs, VMware. “The VMware TAP program offers companies like Radware the tools and resources they need to develop high-value solutions that meet the needs of our mutual customers.”

With more than 700 members worldwide, the VMware TAP program works with best-of-breed technology partners to provide them a comprehensive set of VMware technical and marketing services, support, tools and expertise to deliver enhanced value to joint customers.

#### **About Radware**
