

# About Radware

**Radware®** (NASDAQ) is a global leader in application security and delivery solutions for multi-cloud environments. The company's cloud application, infrastructure, and API security solutions use AI-driven algorithms for precise, hands-free, real-time protection from the most sophisticated web, application, and DDoS attacks, API abuse, and bad bots.

Enterprises and carriers worldwide rely on Radware's solutions to address evolving cybersecurity challenges and protect their brands and business operations while reducing costs. For more information, please visit the Radware website.

- Founded **1997** / Public **1999**
- FY **2023** Revenue: **\$261.3M**
- Approx. **1,100** employees
- Offices worldwide: **23**

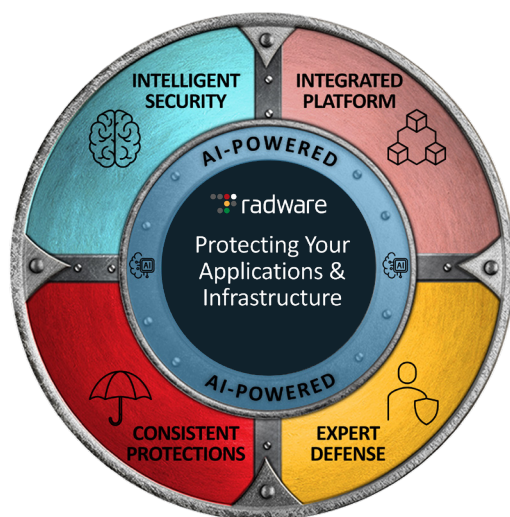

## Modern Challenges on the Way to Protection

In today's challenging threat landscape, businesses need to stay ahead to stay secure. Radware® EPIC-AI™ infuses state-of-the-art AI and generative AI algorithms across Radware's security solutions to halt modern threats, protect consistently and ensure compliance.

1. **Shifting Threat Landscape:** Hacktivists harness new tools and generative AI to attack applications.
2. **Regulatory Requirements:** New, stricter regulations increase penalties and compliance standards.
3. **Hybrid Cloud Deployments:** On-prem hybrid and cloud deployments increase area of vulnerability.
4. **Staff and Skills Shortages:** It's hard to find qualified workers to fill the cybersecurity skills gap.

## How Radware Helps You Stay Safe

At Radware, we're dedicated to protecting your applications and infrastructure. Our solutions, powered by Radware® EPIC-AI™, provide an integrated platform with intelligent security and expert defense applied consistently across cloud, on-prem and hybrid environments.

### Intelligent Security

Fight AI-powered cyberthreats with Radware's AI-based algorithms

### Integrated Platform

Solve all-in-one threats and compliance issues by correlating intel across modules

### Consistent Protection

Protect consistently across all environments and entry points

### Expert Defense

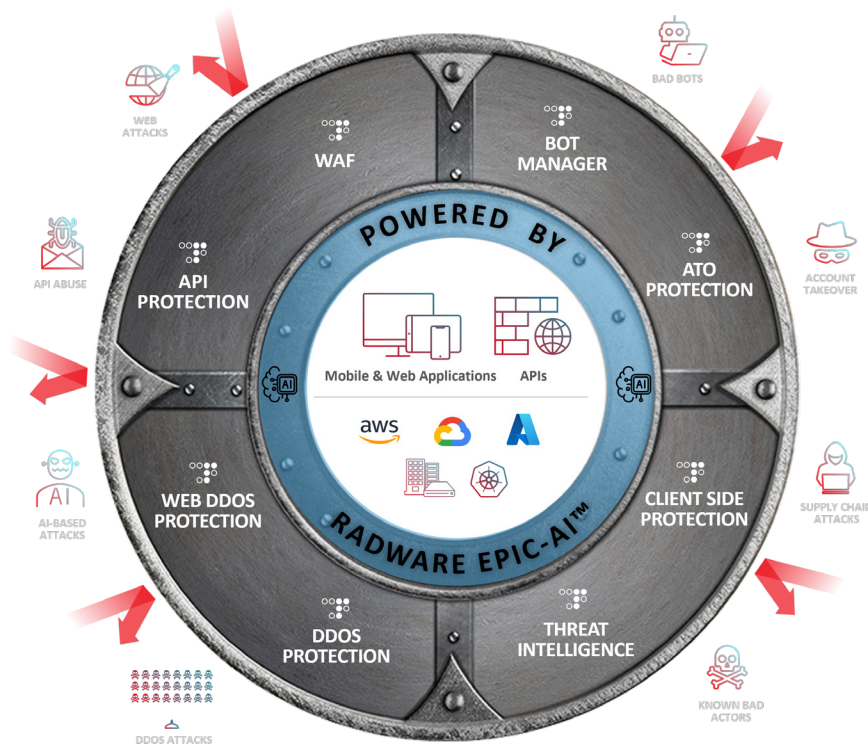

Survive complex attacks and expert staffing needs with our 24/7 security experts

# 360° of Protection

Radware Cloud Application Protection ensures 360 degrees of protection for apps and infrastructure. Turn to a single solution for cloud-based WAF, API protection, bot manager, client-side protection and DDoS protection.

Radware's award-winning protection covers:

- **Any Application:** Secure all your web and mobile applications and APIs.
- **Any Environment:** Protect all environments including public, private and hybrid clouds and microservices.
- **Any Threat:** Stop web attacks, API abuse, bot attacks, L3-7 DDoS attacks, the latest AI-powered threats and more.

**Radware® EPIC-AI™** infuses state-of-the-art AI and generative AI algorithms across Radware's security solutions to secure apps, reduce mean time to resolution, increase accuracy and save costs.

Powered by Radware® EPIC-AI™, Radware's security solutions provide a multi-layered integrated platform that offers:

- **Integration across multiple enforcement points**
- **Real-time cloud protection engines**
- **Cross-platform AI reasoning**
- **AI-Driven SOC capabilities**

## Market-Leading Solutions

Radware's cybersecurity and application delivery solutions provide infrastructure, application and data center protection and availability services across physical, cloud and software-defined data centers.

### Application Protection

- [Cloud Application Protection Service](#) — Comprehensive, adaptive, state-of-the art WAF (Web Application Firewall), bot management, API protection, client-side protection and application DDoS protection solution
- [Bot Manager](#) — Bot protection for APIs, web and mobile applications
- [Alteon Integrated WAF](#) — Cloud or on-prem WAF integrated with Radware Alteon ADC
- [Kubernetes WAF](#) — Data and application protection for microservice architectures
- [Threat Intelligence](#) — Real-time intelligence for preemptive protection

### DDoS Protection

- [Cloud DDoS Protection Services](#) — On-Demand, Hybrid & Always-On deployment models
- [Web DDoS Protection Solution](#) — Defend web applications from large-scale DDoS attacks.
- [DefensePro X](#) — DDoS and attack mitigation device
- [Cyber Controller](#) — Unified management, configuration & attack lifecycle
- [Threat Intelligence](#) — Real-time intelligence for preemptive protection
- [Cloud Firewall-as-a-Service](#) — Cloud-based network firewall solution

### Application Delivery

- [Alteon](#) — Application Delivery Controller (ADC)
- [SSL Inspection](#) — Inspection, offloading & acceleration of SSL traffic
- [Alteon Integrated WAF](#) — On-prem WAF appliance integrated with Radware Alteon

### Unique Solutions for Carriers & Service Providers

- [Infrastructure Protection](#) — Adaptive, automated DDoS protection for service providers
- [5G Protection Solutions](#) — 5G security designed and built to meet 5G requirements
- [Managed Security Services \(MSSP\)](#) — Grow your business with managed security services

## Our Customers

The world's largest enterprise, carrier, and service providers — in industries such as managed services, cloud, hosting and colocation providers, email service providers, customer management, CDN providers, e-commerce and financial services — use our solutions to ensure optimal service levels for applications in virtual, cloud and software defined data centers.

The [Radware Voice of the Customer](#) serves as a gateway to connect with our customers and explore their feedback on our products. Discover firsthand what they have to say about us and gain insights into their perspectives.

*Radware has completely changed the data center environment. Earlier we working on NLB which not so Efficient to work automatically. In finance sector we are working on some iso message protocol which is hard to load balance, because this is not simple tcp protocol and after using Appshape++ script we are able to automate and load balance backend server based on iso message protocol."*

— Vishal Gaurav, Network Security Engineer, Hitachi Systems

## Radware Channel, Cloud and Technology Partners

Radware's partners are essential to our business success, and we are committed to continually investing in them as we work together to drive customer success. Our goal is to expand our partner ecosystem, extend our reach into new markets, and reinforce our leadership in technology innovation on a global scale.

### Radware Partner Program Advantage

The Radware Partner Program enables partners to develop and sustain successful technology practices. The program comprises a refined suite of commercial packages, tools, services and processes, around which partners can operate profitable businesses and develop a reputation for delivering high-quality and superior value solutions to their customers.

**Designed to support long term profitable growth**

**Competitive Margins**

**Selective approach to partners with the best channel in each territory**

**Partnering across solution expertise that address current and future customer challenges**

**Multi-channel Program: Distributors, VARs, SI's, Cloud providers, ISP's offering an end to end customer opportunity coverage**

It pays to partner with Radware. Access the tools, services and expertise you need to accelerate your business. **Learn more at [Radware.com](#)**

# Industry Recognition

Committed to delivering leading-edge, high-quality products to the marketplace, Radware's solutions receive industry recognition every year for their innovation, features, value, and performance.

## DDoS

- **Gartner Peer Insights** rates Radware DDoS Protection Service with a score of 5.0 out of 5.0, April 2024
- **Forrester** ranked Radware as a leader in the Forrester Wave™: DDoS Mitigation Solutions, Q1, 2021
- **Quadrant Solutions** ranked Radware as a leader in DDoS Mitigation, 2024

## Bot Management

- **Gartner Peer Insights** rates Radware Bot Manager with a score of 5.0 out of 5.0, April 2024
- **AiteNovarica** ranked Radware Best in Class in the Bot Detection and Management Aite Matrix, 2022
- **Quadrant Solutions** ranked Radware as a leader in Bot Management, 2024

## WAAP

- **Quadrant Solutions** ranked Radware as a leader in Web Application Firewall (WAF), 2024
- **Gartner** ranked Radware as #2 in the High Security and API Security and DevOps use cases in the WAAP Critical Capabilities and as a Visionary in the WAAP Magic Quadrant, 2022
- **Gartner Voice of the Customer** for Cloud Web Application and API Protection 2024 rated Radware a Strong Performer and 99% of customers are 'Willing to Recommend' Radware
- **Gartner Peer Insights** rates Radware Cloud WAF Service with a score of 4.8 out of 5.0 with 45 ratings, April 2024
- **KuppingerCole** ranked Radware as a product, innovation, market, and overall leader in the Web Application Firewall Leadership Compass, 2024
- **GigaOm** ranked Radware as a leader, fast mover and only vendor to earn a top score on AI enhanced vulnerability detection in the GigaOm Radar for Application and API Protection, 2024

## Application Delivery Controller

- **Gartner Peer Insights** rates Radware Alteon with a score of 4.7 out of 5.0 with 48 ratings, April 2024
