

Radware: Protection Built for the AI Era

Ensure autonomous, real-time protection across your apps, APIs and AI.

About Us:

Radware® (NASDAQ: RDWR) is a global leader in application security and delivery solutions for multi-cloud environments.

The company's cloud application, infrastructure, API, and AI security solutions use AI-driven algorithms for precise, hands-free, real-time protection against sophisticated

web, application, and DDoS attacks, API abuse, business logic threats, and malicious bots. Radware delivers end-to-end API security, including discovery, posture management, testing and runtime protection, along with advanced protection for emerging agentic AI environments. Enterprises and carriers worldwide rely on Radware to address evolving cyberthreats, protect their brands and business operations, and reduce costs. Regulatory Pressure

How Radware Helps You Stay Safe

360° Protection from Radware's Cloud Security Platform

Radware delivers autonomous, AI-driven detection, correlation and mitigation throughout your digital and AI ecosystem.

Award-winning protection covering:

➤ Any Application:

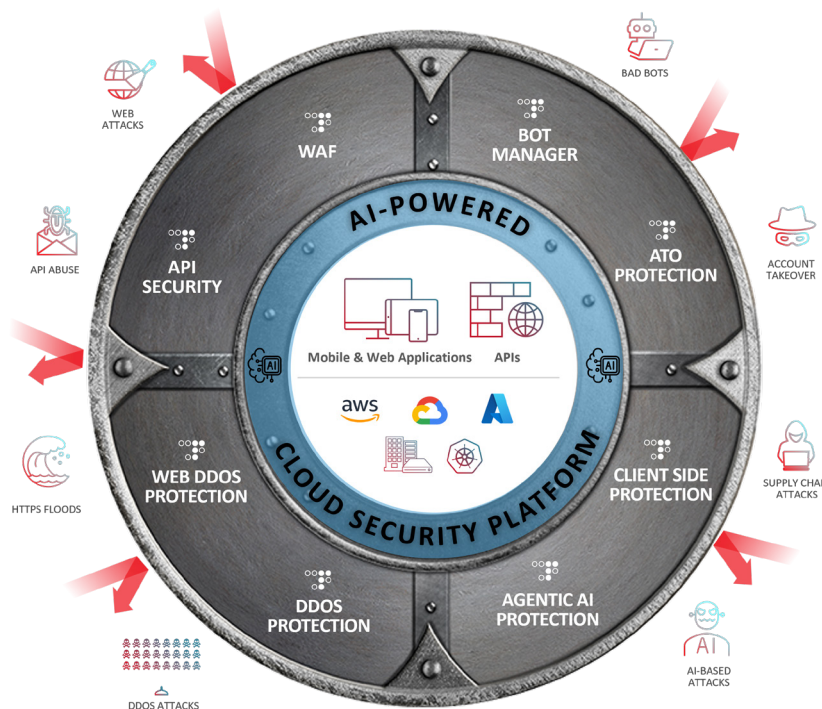

Secure all your web and mobile applications and APIs.

➤ Any Environment:

Protect all environments, including public, private and hybrid clouds and microservices.

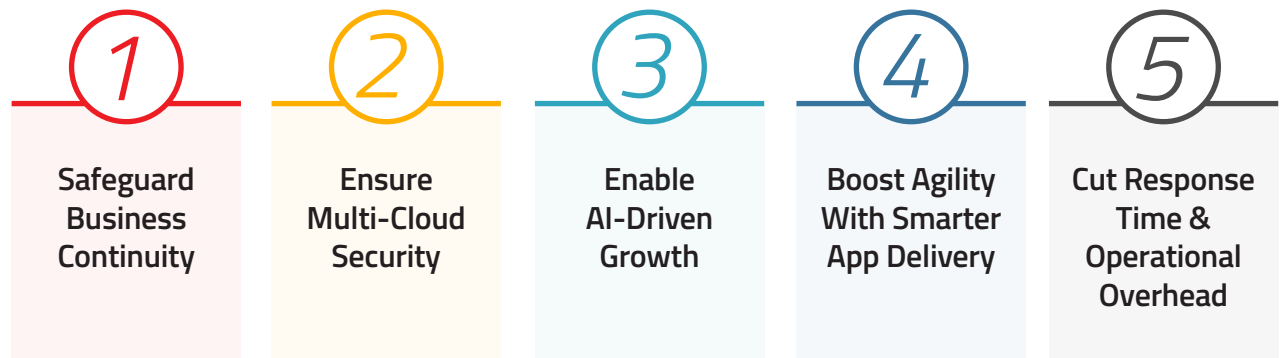

➤ Any Threat:

Stop all types of attacks on your apps, APIs and AI.

“Truly exceptional protection for web apps & APIs”
— Radware Customer, Telecommunications
Gartner Peer Insights

Helping Customers Drive Business Outcomes

Market-Leading Solutions

Radware's cybersecurity and application delivery solutions provide app, API, AI and data center protection and availability services across physical, cloud and software-defined data centers.

Agentic AI Security

- [Agentic AI Protection](#) — Intent-aware behavioral protection for AI agent use
- [LLM Firewall](#) — Real-time, AI-based protection at the prompt level

Application & API Security

- [Cloud Application Protection Service](#) — Comprehensive, adaptive, state-of-the art WAF (Web Application Firewall), bot management, API protection, client-side protection and application DDoS protection solution
- [API Security Service](#) — API protection with full-lifecycle security based on runtime traffic
- [Bot Manager](#) — Protection from automated bot and agentic threats
- [Alteon Protect](#) — Cloud augmented application delivery and security solution
- [Kubernetes WAF](#) — Data and application protection for microservice architectures
- [Threat Intelligence](#) — Real-time intelligence for preemptive protection

DDoS Protection

- [Cloud DDoS Protection Services](#) — On-Demand, Hybrid & Always-On deployment models
- [Web DDoS Protection Solution](#) — Defend web applications from large-scale DDoS attacks.
- [DefensePro X](#) — DDoS and attack mitigation device
- [Cyber Controller](#) — Unified management, configuration & attack lifecycle
- [Threat Intelligence](#) — Real-time intelligence for preemptive protection
- [Cloud Firewall-as-a-Service](#) — Cloud-based network firewall solution

Application Delivery

- [Alteon](#) — Application Delivery Controller (ADC)
- [SSL Inspection](#) — Inspection, offloading & acceleration of SSL traffic
- [Alteon Protect](#) — Cloud augmented application delivery and security solution

Unique Solutions for Carriers & Service Providers

- [Infrastructure Protection](#) — Adaptive, automated DDoS protection for service providers
- [5G Protection Solutions](#) — 5G security designed and built to meet 5G requirements
- [Managed Security Services \(MSSP\)](#) — Managed security services to help you grow your business

Our Customers

The world's largest enterprise, carrier and service providers use our solutions to ensure optimal service levels for applications in virtual, cloud and software defined data centers.

[Radware Voice of the Customer](#) serves as a gateway to connect with our customers and explore their feedback on our products. Discover firsthand what they have to say about us and gain insights into their perspectives across industries such as managed services, cloud, hosting and colocation providers, email service providers, customer management, CDN providers, e-commerce, financial services and more.

Having used Radware solutions for the past few years, I can confidently say they provide reliable, real-time threat detection and mitigation, keeping networks secure even against the most sophisticated attacks."

— **Abhishek Kapoor, Network/Security Architect, Nokia**

Radware Channel, Cloud and Technology Partners

Radware's partners are essential to our business success, and we are committed to continually investing in them as we work together to drive customer success. Our goal is to expand our partner ecosystem, extend our reach into new markets, and reinforce our leadership in technology innovation on a global scale.

Radware Partner Program Advantage

The Radware Partner Program enables partners to develop and sustain successful technology practices. The program comprises a refined suite of commercial packages, tools, services and processes, around which partners can operate profitable businesses and develop a reputation for delivering high-quality and superior value solutions to their customers.

Designed to support long term profitable growth

Competitive Margins

Selective approach to partners with the best channel in each territory

Partnering across solution expertise that address current and future customer challenges

Multi-channel Program: Distributors, VARs, SI's, Cloud providers, ISP's offering an end to end customer opportunity coverage

It pays to partner with Radware. Access the tools, services and expertise you need to accelerate your business. **Learn more at [Radware.com](https://www.radware.com)**

Industry Recognition

Committed to delivering leading-edge, high-quality products to the marketplace, Radware's solutions receive industry recognition every year for their innovation, features, value, and performance.

DDoS

- **2026 Customer Choice Award Winner** Radware earned this Tech Leader Award based on verified customer feedback for DDoS protection
- **2026 PeerSpot Leader for DDoS Protection** Radware's DDoS protection ranks #1 in PeerSpot's distributed denial of service (DDoS) category, where it is recognized as a Leader
- **G2 Cloud DDoS Protection Leader, Fall 2025** Radware named G2 leader in DDoS protection based on real customer reviews, satisfaction scores and market presence
- **2025 Peerspot Leader for DDoS Protection** Peerspot recognizes Radware Cloud DDoS Protection as a Leader in customer satisfaction and market presence
- **SPARK Matrix™: DDoS Mitigation, Q3 2025** QKS Group recognizes Radware as a Leader in its SPARK Matrix for Distributed Denial of Service (DDoS) Mitigation, 2025

Bot Management

- **SPARK Matrix™: Bot Management, Q3 2025** QKS Group recognizes Radware as a Leader in its 2025 SPARK Matrix for Bot Management
- **SPARK Matrix™: Bot Management, 2024** Radware named Leader in QKS group SPARK Matrix for Bot Management

WAAP

- **G2 Web Application Firewall Leader, Spring 2026** Radware named a Leader in the G2 Grid® for Web Application Firewall (WAF), based on real customer reviews, satisfaction scores and market presence.
- **G2 Cloud Web Application Protection Leader, Fall 2025** Radware named a G2 leader in web application protection based on real customer reviews, satisfaction scores and market presence
- **2025 Peerspot Leader for Application Protection** Peerspot recognizes Radware Cloud Application Protection as a Leader in customer satisfaction and market presence
- **SPARK Matrix™: Web Application Firewall (WAF), Q3 2025** QKS Group recognizes Radware as a Leader in its 2025 SPARK Matrix for WAF
- **G2 Cloud Web Application Protection Leader, Summer 2025** Radware named a G2 leader in web application protection based on real customer reviews, satisfaction scores and market presence.
- **KuppingerCole WAAP Leadership Compass** KuppingerCole names Radware a Leader in its 2025 Leadership Compass report for Web Application and API Protection
- **G2 Cloud WAF Leader, Spring 2025** G2 names Radware as a grid leader for its Cloud Web Application Firewall protection

Application Delivery Controller

- **Gartner Peer Insights** rates Radware Alteon with a score of 4.7 out of 5.0 with 48 ratings, April 2024
