

About Radware

Mission Statement

Radware provides organizations with frictionless security at the pace of innovation. Our cybersecurity and application delivery solutions allow companies to safeguard sensitive data and drive innovation by ensuring that defenses automatically adapt to changes while not becoming a roadblock to agility, innovation and change.

About Radware

Radware® (NASDAQ: RDWR) is a global leader of cybersecurity and application delivery solutions for physical, cloud and software-defined data centers. Its award-winning solutions portfolio secures the digital experience by providing infrastructure, application and corporate IT protection and availability services to enterprises globally. Radware's solutions empower more than 12,500 enterprise and carrier customers worldwide to adapt quickly to market challenges, maintain business continuity and achieve maximum productivity while keeping costs down. For more information, please visit www.radware.com.

- Founded 1997/Public 1999
- FY2020 Revenue: \$250M
- Approx. 1,100 employees
- Offices worldwide: 32

Market-Leading Solutions

Radware's cybersecurity and application delivery solutions provide infrastructure, application and data center protection and availability services across physical, cloud and software-defined data centers.

Data Center Protection

- [Cloud DDoS Protection Services](#) — On-Demand, Hybrid & Always-On deployment models
- [DefensePro](#) — DDoS and attack mitigation device
- [DefenseFlow](#) — Cyber control
- [Emergency Response Team](#) — Fully managed and under attack services
- [Threat Intelligence](#) — Real-time intelligence for preemptive protection
- [Vision](#) — Application and security management & analytics
- [MSSP Portal](#) — Multitenant DDoS detection & mitigation service delivery platform

Application Delivery

- [Alteon](#) — Application Delivery Controller (ADC)
- [Alteon Cloud Control](#) — Multi-cloud application delivery
- [SSL Inspection](#) — Inspection, offloading & acceleration of SSL traffic

- [Direct](#) — Data center orchestration interface

Application Protection

- [Cloud WAF Service](#) — Unmatched, adaptive web security protection
- [AppWall WAF](#) — Web Application Firewall physical / virtual appliance
- [Bot Manager](#) — Bot protection for APIs, web and mobile applications
- [Kubernetes WAF](#) — Data and application protection for microservice architectures
- [SecurePath](#) - Application security architecture that protects hybrid, cloud application environments

Public Cloud Protection

- [Cloud Native Protector](#) — Protection for workloads application protection
- [Kubernetes WAF](#) — Data and application protection for microservice architectures
- [Bot Manager](#) — Bot protection for APIs, web and mobile applications

Our Customers

The world's largest enterprise, carrier, and service providers — in industries such as managed service, cloud, hosting and colocation providers, email service providers, customer management, CDN providers, e-commerce and financial services — use our solutions to ensure optimal service levels for applications in virtual, cloud and software-defined data centers. Our 12,500+ customers include [Internet2](#), [INAP](#), [Contegix](#), [TierPoint](#), [Ensono](#), [Perion](#), [Manutan](#), [Hexatom](#), [Amadeus Group](#), [Limelight Networks](#), and [Brinkster](#).

Application Integrations

Radware works closely with major application vendors to increase availability, improve end-user response times and reduce costs of deployment. Our global application integrations include [Cisco](#), [Microsoft](#), [IBM](#), [SAP](#), Blackboard, [Oracle](#), [Citrix](#), [VMWare](#) and [Venafi](#).

Global Systems Integrators

Radware works with leading global systems integrators that specialize in bringing together component subsystems into a whole and ensuring that those subsystems function together, while also solving automation problems. Global integrators include [Wipro](#), [Infosys](#), [Cognizant](#), [Tech Mahindra](#), [HCL](#), and [TCS](#).

Global Technology Partners

Committed to delivering leading-edge, high-quality products to the marketplace, Radware's solutions receive industry recognition every year for their innovation, features, value and performance.

Industry Recognition

Committed to delivering leading-edge, high-quality products to the marketplace, Radware's solutions receive industry recognition every year for their [innovation](#), [features](#), value and performance.

Gartner

- Ranked Radware highest for API and High Security in 2020 WAAP Report
- In the Visionaries Quadrant of the 2020 Magic Quadrant for Web Application
- As a Customer's Choice in the 2021 Peer Insights Voice of the Customer for Web Application Firewalls

Forrester

- Ranked Radware as a leader in the Forrester Wave™: DDoS Mitigation Solutions, Q1, 2021

- Gave Radware the highest score in the current DDoS offering category
- As a Strong Performer in The Forrester Wave™: Web Application Firewalls, Q1, 2020

IDC

- Positioned Radware as the leader in the 2019 DDoS Prevention MarketScape

Quadrant Solutions

- Recognized Radware as the 2020 leader in Bot Management
